Councillor Clarke Gossen left the Council meeting at 1: 30 p.m.

#14/19  
CANTIN

That the Public Hearing be opened at 1:30 p.m.

Carried

### Public Hearing

#### Bylaw #6/2018

#### A Bylaw of the Rural Municipality of Leask No. 464 in the Province of Saskatchewan, to amend Bylaw 6/92 known as the Zoning Bylaw.

10 Ratepayers were present; 6 signed the attendance sheet. The Reeve began with opening remarks and asked for those who wish to speak to present themselves.

Mr. ██████████ spoke first on behalf of Lac La Peche Cabin Owners Association. He presented his written report, identified as "Item #1A" and circulated to the Council.

His comments centred on the desire to preserve the quality of life at Lac La Peche, cabin values being maintained and the environmental issues regarding the quality of the lake. The concern of changing the topography on the parcel being considered for rezoning could cause more wind and erosion. The consensus among those surveyed is in opposition to rezoning the parcel of land for the future development of a camp ground.

Mr. ██████████ asked why the rezoning request couldn't wait until the new Zoning Bylaw and OCP comes into effect.

Reeve Cantin explained that the rezoning came forward as a result of the owners making application and that the first reading of Bylaw 1/2019 had recently taken place.

Mr. ██████████ told the Council that it is up to them to do the right thing and not let this development affect the future of lake negatively. He is opposed to any more development at Lac La Peche. Also, how is the public supposed to know when these rezoning and plans are going on.

Reeve Cantin explained that there is a process to follow and the process includes notifying the public and inviting them to these public hearings. We bring forward requests to rezone as they are brought to the Municipality; the municipality doesn't initiate them.

██████████ asked for more clarification on the 6 lots to add up to 21 lots in total.

Reeve Cantin replied explaining that they are not necessarily allowed 21 sites automatically. They will need a permit each year for a camp ground and the Council can refuse a permit if criteria isn't met.

██████████ reiterated that rezoning this parcel to commercial, allows a huge potential for pressure on the lake. There are 33 people affected by this one proposal for commercial development from 1 owner.

██████████ asked if anyone knew when the last environmental assessment was done at Lac La Peche.

██████████ responded that he believed it wasn't done when Anderson's development was approved.

Someone commented that it was probably done in the 1980's

██████████ asked if the Municipality should get an Environmental Study done at Lac La Peche.

Reeve Cantin explained that it is good to have an environmental study done however the people around the lake must be prepared to take action to restore the lake as may be recommended in that study.

The Administrator, Judy Douglas, read a written submission received from Brian and Candy Ashby as submitted and marked "Item 1B"

██████████ inquired what numbers of campsites will they be dealing with. They say an addition of 6 to equal 21 but there is already 17 sites on their other parcel now.

Reeve Cantin responded that the number of sites would have to be dealt with if and application for development comes forward after the rezoning. He then explained the process for 3 readings of Bylaw 1/2019 of which only 1 reading had taken place to date. After all 3 readings and Ministerial approval for the rezoning, can a development permit application be accepted and considered. That is when the number of campground sites or any other commercial development allowed for the zoning would come up for discussion.

- #15/19  
THIEL      **PUBLIC HEARING CLOSED**  
That the Public Hearing be closed at 2:53 p.m.      Carried
- DELEGATION 2:53 – 3:35 p.m.**
